“ You can't put the memories of 67 years down in a few paragraphs. As a sister-in-law to John, we shared a lot of family time together. John was always fun to be with, good with our kids and while we did clash now and then, we always had a lot of love for each other.  
He leaves a hole in our lives now. We will miss him.

“ Uncle John! What can I say, he was a bigger than life super fun guy with a can do attitude. He was also a bit of a hard hard ass when the mood hit him. All who knew him would agree he had his rough edges, but through it all he enjoyed the undying love and devotion of his daughters. He was my favorite Uncle and he showed my brothers and I some great times on the lake in New York. I even worked for him for a while in Florida and fondly remember his words we are running on fumes 30 seconds before we ran out of gas on some lonely back road. This was before cell phones so it was quit the adventure getting home. Buy John, you will be missed.
